

# European Funding Opportunities

# Goals

- Have a look of the potential funding opportunities at European level to go further than this event in our relationship
  - We expect that a small community will be able to interact and enjoy to work together
  - IMHO, a first step before to work with new partners is to know them quite well  
=> networking actions to discuss
- 
-

# *Calls in the FP7*

- <http://cordis.europa.eu/fp7/>
  - Cooperation and People programmes
  - Top-down approach
  - Time consuming and low acceptance rate
  - ICT:
    - <http://cordis.europa.eu/fp7/ict/>
    - Open Call: FP7-ICT-2007-C via FET Open scheme
  - To find a partner:
    - [http://cordis.europa.eu/fp7/partners\\_en.html](http://cordis.europa.eu/fp7/partners_en.html)
- 
-

# Eureka

- <http://www.eureka.be/>
  - is a pan-European network for market-oriented, industrial R&D.
  - Celtic - A Eureka Cluster Programme to foster European leadership in telecommunications
    - <http://www.celtic-initiative.org/>

- 
-

# *Eureka*

- ITEA2 (Information Technology for European Advancement)
  - <http://www.itea-office.org/>
  - Software-intensive Systems and Services (the future of embedded and distributed software)
  - Submission deadline for the latest call is past

# COST

- COST – European Cooperation in the field of Scientific and Technical Research (managed by ESF – European Science Foundation)
    - <http://www.cost.esf.org/>
    - Bottom-up approach
    - Helpful for networking activities
      - COST mission is to strengthen Europe in scientific and technical research through the support of European cooperation and interaction between European Researchers
      - It supports networking activities such as meetings, conferences, short term scientific exchanges and outreach activities. **COST does not fund the research in itself.**
    - The next collection date for Preliminary Proposals will be 26 September 2008
- 
-

# *COST*

- Scope for us (ICT):
    - Information science and technologies
    - Communication technologies
    - Telecommunication and information systems, infrastructures, and services
    - Societal aspects of ICT
    - New ideas and initiatives are welcome as well those with high interdisciplinary elements and close links and overlaps with other domains.
- 
-

# COST

- Are there some persons interested to be involved in a proposal in Security area?
    - Training schools, workshops/conferences, grants
  - Close existing actions:
    - 2100: Pervasive Mobile & Ambient Wireless Communications (Running until 11/12/2010)
    - 2101: Biometrics for Identity Documents and Smart cards (Running until 06/12/2010)
  - Other ideas, proposals?
- 
-
